

Fourth Annual

Allison FOUNDATION Charity Golf Tournament

Providing Funds for Autism Therapy and Care in Charles County, Maryland

Friday, September 18, 2009

At Potomac Ridge Golf Course

1:00 p.m. Shotgun Start - Captain's Choice Format

The Allison Foundation is dedicated to providing funds to families for the purpose of autism therapy and care. Autism is a brain disorder that impairs a person's ability to communicate and function, striking children at the epidemic rate of 1 in 150 births. Considering this staggering number, surprisingly few resources are available to parents with autistic children and much of the treatment is not covered by medical insurance. Although there is no cure for Autism, much promise is shown through therapy programs and treatment.

More information: www.allisonfoundation.org or call George Nairn, Jr. at 301-659-5900.

Tournament fee includes: Green/cart fees, practice facility, goodie bag, beer, sodas, snacks, prizes, awards, and reception with dinner and entertainment!
